

# DAILY TRANSCRIPT

JUN 14 1996

**InSite97** begins to bubble: September 1997 may seem a long way off, but as far as the folks at InSite are concerned, the opening of the next spectacular cross-border exhibition of contemporary art is just around the corner. Forty artists from 10 countries have been invited here in June to absorb the regional ambiance of the county and northern Baja and possibly select sites for exhibit installations next year. "We've sought out artists from throughout the Americas (for InSite97) who have the potential to probe deeply and resonate powerfully in the region and with each other," said **Sally Yard**, the U.S. member of the curatorial team that also includes Canada's **Jessica Bradley**, **Olivier Debriose** from Mexico and Brazil's **Ivo Mesquita**. InSite 94 brought international attention to the area for this unique event.
